Begin Text. Tunisia is following with great concern and deep anxiety the deteriorating situation in the Palestinian territories, especially in the Gaza Strip, which might result in a humanitarian disaster. While reasserting its rejection of the logic of force and all forms and practices of repression, as well as measures of blockade, sealing-off and disruption of all forms of re-supplying vital to the brotherly Palestinian people's daily life, Tunisia reiterates its call to the international community to urgently and efficiently intervene to put a halt to the Palestinian people's sufferings and guarantee to them the necessary protection. Tunisia considers that the persistent escalation represents a serious menace to the efforts and initiatives aimed to revive the talks, and to the future of the peace process, and compounds the region's complex situation. End Text.

13. (U) The Tunisia-Africa Press Agency (TAP), the official government news agency, also issued a statement quoting the loyal opposition parties Socialist Democratic Movement (MDS), People's Unity Party (PUP), and Unionist Democratic Union (UDU). According to the press release, the MDS (the largest opposition party in parliament), "voices deep concern about the escalation of the situation and the blockade imposed on the brotherly Palestinian people, reiterating the Movement's solidarity with and support to the Palestinian cause." The PUP, "expresses deep concern about the Israeli aggression against the Palestinian people's children in Gaza. PUP calls for an urgent Arab action to put an end to this aggression, stressing the need for the Palestinian national forces to start a broad national dialogue that would lay down a platform for an international consensus." The UDU condemned, "the Israeli attacks on the Gaza Strip and calls on all national and Arab forces to support the Palestinian people and work to lift the unfair blockade imposed on them." Per

the TAP press release, the independent Tunisian Bar Association also issued a statement supporting the removal of the "blockade."
